

Study Abroad

As a member of International Student Exchange Programs (ISEP), Jamestown College offers several opportunities for students to immerse themselves in another culture by studying abroad for a year, a semester, or a summer. Our students have access to 144 study sites in Africa, Asia, Europe, Latin America, Middle East, Oceania, the UK, and Canada.

Benefits of Study Abroad

“It will change your life. You’ll come back a new person.” For years, the benefits of studying abroad have been described in this way. Studying abroad positively and unequivocally influences the career path, world-view, and self-confidence of students. Here are just a few of the advantages you’ll gain by studying abroad:

- increased self-confidence
- enhanced interest in academic study
- reinforced commitment to foreign language study
- improved understanding of one’s own cultural view and biases
- career development

International Student Exchange Programs

Through ISEP, students have the opportunity to immerse themselves in a foreign culture, earn credit toward their degree at Jamestown College, make friends in the host country, meet students from all over the world, improve language skills or take courses in English, take courses in most academic fields, and pay the same tuition, room and board costs that would be paid if they stayed here. Federal and most other forms of financial aid can be applied toward participation in ISEP.

Other Opportunities for International Study and Travel

Jamestown College students and faculty study each summer with Modern Language Studies Abroad (MLSA) at the University of Costa Rica in San José or in Madrid, Spain, to receive upper-level course credits. The Department of Foreign Language offers study trips on a demand basis.

The Department of Business, Accounting, and Economics offers opportunities for studying abroad with the Irish/American Scholars Study Abroad Program in addition to ISEP exchanges.

There are opportunities to travel abroad with a number of departments, including semester break trips, choir trips, and mission work trips; many students have extended their trips for further travel and study.

Each year, the College receives notice of several foreign internships or summer jobs for which students may apply.
